MSCI Select Emerging and Frontier Markets Access Index (USD)

The MSCI Select Emerging and Frontier Markets Access Index is based on the MSCI Emerging and Frontier Markets Index, its parent index. The Index aims to represent the performance of 200 securities from select countries within the MSCI Emerging and Frontier Markets Index, specifically 150 securities from Emerging Markets and 50 securities from Frontier Markets. The Index screens securities classified in the Emerging Markets to target companies with high economic exposure to the Emerging and Frontier Markets excluding Brazil, India, China, Korea and Taiwan. For securities classified as Frontier Markets, a liquidity screen is applied to enhance replicability. The Index aims to mitigate concentration risk by applying capping at the country, sector and issuer level.

For a complete description of the index methodology, please see Index methodology - MSCI.

The MSCI Select Emerging and Frontier Markets Access Index was launched on Sep 03, 2018. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance -- whether actual or back-tested -- is no indication or guarantee of future performance.

ABOUT MSCI

MSCI (NYSE: MSCI Inc.) strengthens global markets by connecting participants across the financial ecosystem with a common language.
