Below is a brief description of the MSCI Hedge Fund Process Groups:

The **MSCI Directional Trading IndexSM** - MSCI defines Directional Trading strategies as those based upon speculating on the direction of market prices of currencies, commodities, equities, and bonds in the futures and cash markets.

The **MSCI Relative Value IndexSM** - Relative Value strategies focus on spread relationships between pricing components of financial assets or commodities.

The **MSCI Security Selection IndexSM** - Security Selection managers combine long positions and short sales with the aim of benefiting from their ability in selecting investments while offsetting systematic market risks.

The **MSCI Specialist Credit IndexSM** - Specialist Credit funds seek to lend to credit-sensitive issuers.

The **MSCI Multi-Process Group IndexSM** - Multi-Process Group comprises funds that practice a strategy whereby a single investment process does not account for more than 80% of their risk capital.

¹Core Fund Composite Index comprises funds with assets greater than \$100mm.

²Small Fund Composite Index comprises funds with assets greater than \$15mm but less than \$100mm.
