The MSCI Hedge Invest Index was launched on July 15, 2003 with 64 constituent funds, in response to client demand for an index consisting of a diverse sample of hedge funds and representing a broad range of hedge fund strategies. The index constituent funds provide weekly liquidity. The index is constructed and maintained by MSCI according to the MSCI Investable Hedge Fund Index Methodology, using eligible managed accounts owned by Lyxor Asset Management, a subsidiary of the Société Générale Group. The index is designed to serve as the basis of a wide range of index linked financial products.

The MSCI Hedge Invest Index is reviewed quarterly (i) to attempt to insure appropriate weighting of the strategy weights of the investable hedge fund index taking into account changes to the strategy weights in the hedge fund universe, as represented by the broader MSCI Hedge Fund Composite Index (ii) to make additions to the investable hedge fund index of newly available funds on the managed account platform, which meet the constituent eligibility criteria and (iii) to make deletions from the investable hedge fund index of constituents that no longer meet the ongoing eligibility criteria.
