

MSCI China Indices

Reflecting the diversity of the Chinese investment universe and the variety of investment approaches to China

The MSCI China Indices consist of a range of country, composite and non-domestic indices for the Chinese market, intended for both international and domestic investors, including Qualified Domestic Institutional Investors (QDII) and Qualified Foreign Institutional Investors (QFII) licensees. The indices are calculated according to the MSCI Global Investable Market Indices (GIMI) Methodology.

Key Features and Benefits

Comprehensive Coverage: The MSCI China Indices cover all China share classes through various index combinations, as depicted in the table below, and are designed to provide a comprehensive, global representation of the China equity investment opportunity set.

Flexible Range: Over 240 indices are calculated, reflecting the variety of investment approaches to China, including the flagship MSCI China A Index, the MSCI All China Index, the MSCI Overseas China Index, the MSCI International China Index and the MSCI Golden Dragon Index. Indices are also available in large, mid and small cap size segments.

Rigorous Index Construction: As with all MSCI Global Equity Indices, the MSCI China Indices reflect a rigorous approach to index construction, incorporating broad sector diversification, free float adjustment, minimum float, liquidity and size guidelines, annual and quarterly index reviews.

Index Licensing: All the MSCI China Indices may be licensed for use by institutional investors around the world for portfolio management and benchmarking purposes. The indices may also be licensed to serve as the basis of structured products and other index-linked investment vehicles such as ETFs.
