

CASE STUDY: ASSET MANAGER

To capitalize on ESG research

OPPORTUNITY

A U.S.-headquartered global investment management firm specializing in quantitative investing was seeking a source to enhance its in-depth research capabilities for environmental, social and governance-related business practices of companies worldwide.

SOLUTION

We delivered a robust data set, ESG ratings and history available, in addition to analytics for portfolio construction and reporting.

OUTCOME

The client has integrated MSCI ESG factors in its equity portfolios and separately managed accounts.
