

MSCI World Information Technology 10% Risk Control 3.25% Decrement Index (EUR)

The MSCI World Information Technology 10% Risk Control 3.25% Decrement Index is based on MSCI World Information Technology Index, its parent index, and includes large and mid-cap securities across 23 Developed Markets (DM)* countries. The index aims to represent the performance of the MSCI World Information Technology Index, while targeting a specific level of risk and applying a constant markdown ('synthetic dividend') expressed as a percentage of performance. All securities in the index are classified in the Information Technology sector as per the Global Industry Classification Standard (GICS®).

Index methodology

The MSCI World Information Technology 10% Risk Control 3.25% Decrement Index is constructed from its parent index, the MSCI World Information Technology Index. All securities in the index are classified in the Information Technology sector as per the Global Industry Classification Standard (GICS®). The index aims to represent the performance of the MSCI World Information Technology Index, while targeting a specific level of risk and applying a constant markdown ('synthetic dividend') expressed as a percentage of performance. A specific level of risk is targeted by dynamically varying the weight of the MSCI World Information Technology Index, based on the realized volatility of the index, and a cash component.

ABOUT MSCI INC.

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
