

MSCI Europe Select Blue Cycle 50 Index (EUR)

The MSCI Europe Select Blue Cycle 50 Index is based on the MSCI Europe IMI, its parent index, and includes large, mid and small-cap securities across 10 Developed Markets (DM) countries* in Europe. The index aims to represent the performance of a set of 50 companies from Europe which are involved in water related businesses such as water utilities and marine activities, as well as companies which proactively employ water efficient processes, are involved in water recycling and in efforts to utilize alternative water sources to better manage the risk of water shortages impacting their ability to operate, losing access to markets due to stakeholder opposition over water use, or being subject to higher water costs. Additionally, security weights are capped at 5%. At each rebalance, if the weight of any security in the MSCI Europe Select Blue Cycle 50 Index is greater than 5%, its weight will be capped at 5%.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI Europe Select Blue Cycle 50 Index was launched on Jun 22, 2022. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
