

French Healthcare Outperforms All Property Sectors in 2016

MSCI Index reveals 13.4% return

Paris – April 6, 2017 – MSCI Inc. (NYSE: MSCI), a leading provider of research-based indexes and analytics, has recorded a 13.4% total return for healthcare property investment in France for the year to December 2016 as per the released the results of the [IPD France Annual Healthcare Property Index](#).

The 2016 return of 13.4% is stronger than in 2015, when it performed at 11.1%. Additionally, the 2016 index beats the three-year annualized healthcare performance of 10.8%. The higher total return is mostly explained by capital growth of 6.7%. This result is much stronger than in 2015, when the capital growth was at 4.3%.

Carine Dassé, Vice President, MSCI commented: “the healthcare sector has produced the strongest real estate investment performance in the French market, especially in terms of capital growth where it outperformed all the main sectors : Offices, Retail, Industrial and Residential. This is the consequence of a delay of yield compression compared to other sectors. ”

The best performing healthcare sub-sector is the short stay, with a total return of 14.1%. The medium and long stay performed at 11.4% and 11.6% respectively. However, on a three-year basis, the best performing sub-sector was the long stay, at an annualized total return of 11.5%.

In the same manner as the All Property figure (as per the [IPD France Annual Property Index](#)), the income return decreased down by 20bp to 6.4%, but it remains the strongest versus other real estate sectors. It is closely followed by Industrial assets with an income return of 6.2%, and much higher than Retail and Offices at respectively 4.8% and 4.6%. The Income Return in 2016 for all three sub-sectors range between 5.7% and 6.5%.

Yves Bonamy, Executive Director, MSCI commented: “The Income return for all three subsectors is consistently strong year-on-year, it remains high considering a broader decrease in income return for other real estate classes”

The [IPD France Annual Healthcare Property Index](#) is based on a sample of around 308 properties with value of 6.5 billion euros at the end of December 2016. The Healthcare portfolios of BNP REIM, Cofinimmo, Icade Santé, Primonial REIM and Swiss Life REIM are included in this sample.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investable assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.
