

# MSCI MPF ACWI 35% Hedged to HKD Index (HKD)

The **MSCI MPF ACWI 35% Hedged to HKD Index** is designed to comply with the Hong Kong MPF Investment Guidelines that are relevant for Hong Kong MPF investors. It represents a close estimation of the performance that can be achieved by hedging the currency exposures of its parent index, the redefined ACWI universe based on MPF rules, to the HKD, the "home" currency for the hedged index. The index is 35% hedged to the HKD by selling each foreign currency forward at the one-month Forward weight.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).
