

MSCI World Communication Services ESG Screened 20-35 Select Index (USD)

The MSCI World Communication Services ESG Screened 20-35 Select Index is based on the MSCI Europe Communication Services Index, its parent index, and includes large and mid-cap securities across 23 Developed Markets (DM) countries*. The index excludes companies from the parent index that are associated with controversial, civilian, conventional and nuclear weapons and tobacco, that derive revenues from thermal coal and oil sands extraction and that are not compliant with the United Nations Global Compact principles. Further, the companies are required to have an MSCI ESG Rating of 'B' or above to be eligible for inclusion in the index. All securities in the index are classified in the Communication Services sector as per the Global Industry Classification Standard (GICS®). The index is weighted in accordance with the MSCI Capped Indexes methodology, such that the largest group entity within each Index is capped at 35% while all other group entities are capped at 20%, with a buffer of 10% applied on these limits at each index rebalancing.

INDEX METHODOLOGY

The MSCI World Sector ESG Screened 20-35 Select Indexes aim to represent the performance of an investment strategy that excludes companies from the parent index that are involved in business activities of Controversial Weapons, Nuclear Weapons, Civilian Firearms, Tobacco, Thermal Coal, Oil Sands, and Conventional Weapons. In addition to the above, companies that fail to comply with the United Nations Global Compact Principles are also excluded from the MSCI ESG Screened Indexes. Further, the companies are required to have an MSCI ESG Rating of 'B' or above to be eligible for inclusion in the MSCI World Sector ESG Screened 20-35 Select Indexes. The index is weighted in accordance with the MSCI Capped Indexes methodology, such that the largest group entity within each Index is capped at 35% while all other group entities are capped at 20%, with a buffer of 10% applied on these limits at each index rebalancing. The index is reviewed in February, May, August and November, coinciding with the quarterly and semiannually index reviews of MSCI Global Investable Market Indexes. The MSCI World Sector ESG Screened 20-35 Select Indexes are also reviewed monthly on an "as needed" basis. This means that an MSCI World Sector ESG Screened 20-35 Select Indexes are rebalanced at the end of every month on which the 35% and 20% constraints (without the buffer) are breached. Such "as needed" rebalancings ensure that the index remains within the specified weight limits at the beginning of every month.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
