

MSCI JAPAN EMPOWERING WOMEN INDEX (WIN) (JPY)

The MSCI Japan Empowering Women Index (WIN) is based on the MSCI Japan IMI Top 500 Index, its parent index, which includes large, mid and small-cap securities in the Japanese markets. The Index is designed to represent the performance of those Japanese companies that exhibit a commitment towards promoting and maintaining high level of gender diversity among their workforce and also maintain superior financial quality. The index aims to include companies that lead their respective GICS® sector groups in terms of supporting women's participation and advancement in the workforce and adopting diversity policies.

INDEX METHODOLOGY

The MSCI Japan Empowering Women Index (WIN) (the "Index") aims to represent the performance of those Japanese companies that exhibit a commitment towards promoting and maintaining high level of gender diversity among their workforce and also maintain superior financial quality as per MSCI Quality Index methodology.

The index aims to include companies that lead their respective GICS® sector groups in terms of supporting women's participation and advancement in the workforce and adopting diversity policies. The constituents of the index are weighted in proportion of their market capitalization, sector relative Gender Diversity Score and sector relative MSCI Quality Score.

The MSCI Quality Score for each security is calculated by combining the z-scores of three fundamental descriptors, Return on Equity, Debt to Equity and Earnings Variability. The sector-relative quality score is derived from the composite quality z-score. It is arrived at by standardizing the composite quality z-score within each sector.

ABOUT MSCI

For more than 40 years, MSCI' research-based indexes and analytics have helped the world' leading investors build and manage better portfolios. Clients rely on our offerings for deeper insights into the drivers of performance and risk in their portfolios, broad asset class coverage and innovative research.
