MSCI Japan Empowering Women Index (WIN) (JPY)

The MSCI Japan Empowering Women Index (WIN) is based on the MSCI Japan IMI Top 700 Index, its parent index, which includes large, mid and small-cap securities in the Japanese markets. The Index is designed to represent the performance of those Japanese companies that exhibit a commitment towards promoting and maintaining high level of gender diversity among their workforce. The index aims to include companies that lead their respective GICS® sector groups in terms of supporting women's participation and advancement in the workforce and adopting diversity policies.

MSCI FACTOR BOX AND FaCS FRAMEWORK (Please refer to complete description of the MSCI FaCS methodology here)

MSCI FaCS is a standard method for evaluating and reporting the Factor characteristics of equity portfolios. MSCI FaCS consists of Factor Groups (e.g. Value, Size, Momentum, Quality, Yield, and Volatility) that have been extensively documented in academic literature and validated by MSCI Research as key drivers of risk and return in equity portfolios. These Factor Groups are constructed by aggregating 16 factors (e.g. Book-to-Price, Earnings/Dividend Yields, LT Reversal, Leverage, Earnings Variability/Quality, Beta) from the latest Barra global equity factor risk model, GEMLT, designed to make fund comparisons transparent and intuitive for use. The MSCI Factor Box, which is powered by MSCI FaCS, provides a visualization designed to easily compare absolute exposures of funds/indexes and their benchmarks along 6 Factor Groups that have historically demonstrated excess market returns over the long run.
