

MSCI EMU SRI 5% Capped 100% Hedged to CHF Index (CHF)

The **MSCI EMU SRI 5% Capped 100% Hedged to CHF Index** represents a close estimation of the performance that can be achieved by hedging the currency exposure of its parent index, the MSCI EMU SRI Index, to the CHF, the "home" currency for the hedged index. The index is 100% hedged to the CHF by selling the EUR forward at the one-month Forward rate. The index is a capitalization weighted index that provides exposure to companies with outstanding Environmental, Social and Governance (ESG) ratings and excludes companies whose products have negative social or environmental impacts. The Index is designed for investors seeking a diversified Socially Responsible Investment (SRI) benchmark comprised of companies with strong sustainability profiles while avoiding companies incompatible with values screens. The index is a capped version that limits company concentration by constraining the maximum weight of a company to 5%. For a complete description of the index methodology, please see [Index methodology - MSCI](#).
