

MSCI Agriculture & Food Chain Indexes

Designed to reflect the performance of stocks in the agriculture and food chain

The MSCI Agriculture & Food Chain Indexes are equity-based indexes designed to measure the opportunity set represented by listed companies across the agriculture and food industries. The indexes are constructed by aggregating selected Global Industry Classification Standard (GICS®) Sub-Industries: Agricultural Products, Fertilizers & Agricultural Chemicals, Packaged Foods & Meats, and Food Distributors. The MSCI Agriculture & Food Chain Indexes are part of the recently launched MSCI Thematic & Strategy Indexes.

Key Benefits & Features

- » **More Relevant Equity Benchmark** — The MSCI Agriculture & Food Chain Indexes are designed to measure the performance of the various components of the agriculture – and food industries from production through to distribution.
- » **Robust and Transparent Performance Measurement and Manager Evaluation Tool** — The MSCI Agriculture & Food Chain Indexes can be used by fund managers, pension plans and others for performance attribution, performance measurement, and manager evaluation for an equity-based agriculture and food chain strategy.
- » **Choice of Weighting Options** — In addition to market capitalization-weighted MSCI Agriculture & Food Chain Indexes, sector capped weighted indexes are also available. The sector capped weighting scheme applies one-third of the index weight at each Quarterly Index Review to both the Agricultural Products and the Fertilizers & Agricultural Chemicals Sub-Industries. The remaining third is split between the Food Distributors, and Packaged Foods & Meats Sub-Industries.
- » **Flexible and Broad Country Coverage** — The MSCI Agriculture & Food Chain Indexes can be calculated for most MSCI Developed, Emerging and Frontier Markets countries, regions and sectors.
- » **Index Licensing** — The MSCI Agriculture & Food Chain Indexes may be licensed for use globally for portfolio management and benchmarking purposes, as well as to serve as the basis of structured products and other index-linked investment vehicles such as ETFs and ETNs.

Performance of MSCI ACWI and MSCI ACWI Agriculture & Food Chain Index

MSCI Agriculture & Food Chain Indexes – Components

GICS Sub-Industry	Description
Agricultural Products (30202010)	Producers of agricultural products. Includes crop growers, owners of plantations and companies that produce and process foods but do not package and market them. Excludes companies classified in the Forest Products Sub-Industry and those that package and market the food products classified in the Packaged Foods Sub-Industry.
Fertilizers & Agricultural Chemicals (15101030)	Producers of fertilizers, pesticides, potash or other agriculture-related chemicals not classified elsewhere.
Packaged Foods & Meats (30202030)	Producers of packaged foods including dairy products, fruit juices, meats, poultry, fish and pet foods.
Food Distributors (30101020)	Distributors of food products to other companies and not directly to the consumer.

The MSCI Agriculture & Food Chain Indexes consist of four GICS Sub-Industries reflecting the various components of the agriculture and food chain

Product Information

The MSCI Agriculture & Food Chain Indexes can be calculated for most MSCI Developed, Emerging and Frontier Markets countries, regions and sectors, and may be licensed by clients who subscribe to the corresponding MSCI Developed Markets or Emerging Markets index or security level product.
