OVERVIEW

MSCI ESG Indexes are designed to help clients incorporate environmental, social and governance (ESG) factors into their investment decision making processes. The MSCI ESG Indexes are grouped into the following main categories:

Indexes	Description
MSCI Global Sustainability Indexes	These benchmarks target the highest ESG-rated companies making up 50% of the adjusted market capitalization in each sector of the underlying index. The indexes are designed for investors seeking exposure to companies with strong sustainability profiles with relatively low tracking error to the underlying equity market and are reconstituted annually. The family includes the MSCI ACWI ESG Index, MSCI World ESG Index and MSCI EM ESG Index.
MSCI Global SRI Indexes	These benchmarks consist of companies with the highest ESG ratings making up 25% of the adjusted market capitalization in each sector of a parent MSCI index, after excluding companies involved in alcohol, tobacco, gambling, civilian firearms, military weapons, nuclear power, adult entertainment and genetically modified organisms (GMOs). In addition to MSCI ACWI SRI Index, MSCI World SRI Index and MSCI EM SRI Index, region and country sub-indexes are available. The family also includes the MSCI KLD 400 Social Index, which was launched in May 1990 and is one of the first SRI indexes.
MSCI Global ex Controversial Weapons Indexes	These benchmarks are designed for investors who wish to avoid investments in cluster bombs, land mines, chemical and biological weapons, and depleted uranium weapons. The selection universe for the MSCI Global ex Controversial Weapons Indexes is defined by the constituents of MSCI ACWI. In addition to MSCI ACWI ex Controversial Weapons Index, MSCI World ex Controversial Weapons Index, and MSCI EM ex Controversial Weapons Index, region and country sub-indexes are available.
MSCI Global Environmental Indexes	The MSCI ESG Environmental Index family provides Low Carbon, Fossil Fuels Exclusion and Thematic indexes. Increasingly, institutional investors may need to consider how climate change may present risks and opportunities and how to manage carbon exposure in their portfolios. These indexes are designed to support various low carbon investment strategies and include the MSCI Low Carbon Indexes, MSCI Global Fossil Fuels Exclusion Indexes, and the MSCI Thematic Indexes.
Barclays MSCI ESG Fixed Income Indices	The Barclays MSCI ESG Fixed Income Indices comprise more than 500 standard and custom ESG fixed income indices representing the most widely used ESG strategies and investment objectives. The family includes the Barclays MSCI Green Bond, Socially Responsible, Sustainability, and ESG Weighted Indices.

Indexes	Description
Custom MSCI ESG Indexes	Calculated using ESG criteria specified by clients and applied across developed and/or emerging markets countries or regions.
MSCI ACWI Sustainable Impact Index	This index is comprised exclusively of companies whose core business addresses at least one of the world's social and environmental challenges, as defined by the United Nations Sustainable Development Goals. To be eligible for inclusion in the Index, companies must generate at least 50% of their sales from one or more of the Sustainable Impact categories and maintain minimum environmental, social and governance (ESG) standards. The parent index is MSCI ACWI.
