

MSCI EAFE Choice ESG Screened Index (USD)

The MSCI EAFE Choice ESG Screened Index is based on the MSCI EAFE Index, its parent index, and includes large- and mid-cap securities of the 21 developed markets (DM) countries* around the world, excluding the US and Canada. The index is a free float-adjusted market capitalization weighted index that is designed to reflect the performance of companies that have better Environmental, Social and Governance (ESG) ratings relative to their sector peers, and to exclude companies that are involved in controversies and controversial business activities. The Index is designed for investors seeking a benchmark comprised of companies with above-average ESG profiles while avoiding companies incompatible with their values. Constituent selection is based on research provided by MSCI ESG Research.
