

MSCI World Information Technology 35/20 Capped Index (USD)

The **MSCI World Information Technology 35/20 Capped Index** is based on MSCI World index, its parent index and is designed to measure the performance of the large and mid cap representation across 23 Developed Markets (DM) countries*. All securities in the index are classified in the Information Technology sector as per the Global Industry Classification Standard (GICS®). The weight of the largest issuer in the index is constrained to 35% and the weights of all other entities are constrained to a maximum of 20%.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI World Information Technology 35/20 Capped Index was launched on May 07, 2020. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
