# **MSCI Canada IMI Extended ESG Focus Index (CAD)**

The MSCI Canada IMI Extended ESG Focus Index is based on MSCI Canada IMI Index, its parent index, which includes large, mid and small-cap securities across the Canadian equity markets. The Index is designed to maximize exposure to positive environmental, social and governance (ESG) factors while exhibiting risk and return characteristics similar to those of the MSCI Canada IMI Index. The index is constructed by selecting constituents from MSCI Canada IMI Index through an optimization process that aims to maximize exposure to ESG factors for a target tracking error budget set to 100bps under certain constraints. The index is sector-diversified and targets companies with high ESG ratings in each sector. Tobacco, Controversial Weapons and Producers of or ties with Civilian Firearms are not eligible for inclusion.
