

MSCI EMU Selection Choice 50 Index (EUR)

The MSCI MSCI EMU Selection Choice 50 Index is based on the MSCI EMU Index, its parent index, which includes large and mid cap stocks across 10 Developed Markets (DM) countries in the EMU*. The index aims to represent the performance of a set of 50 stocks from the European Economic and Monetary Union region that have high Environmental, Social and Governance (ESG) scores, which are then picked in descending order of their free float-adjusted market capitalization. The Index aims to achieve diversification by equal weighting of the constituents.
