

# MSCI Expands ESG Offering with In-depth Corporate Governance Product

Facilitates portfolio analysis across equity and bonds

**London – September 4, 2014** – [MSCI Inc.](#) (NYSE: MSCI), a leading provider of investment decision support tools worldwide, announced today the expansion of its environmental, social and governance (ESG) research offering through MSCI ESG Research Inc. with the launch of [MSCI ESG GovernanceMetrics](#), delivering in-depth corporate governance research and analysis on its [MSCI ESG Manager](#) online platform.

MSCI ESG GovernanceMetrics provides institutional investors with corporate governance research and analysis on more than 6,000 companies globally. The new product, now part of the MSCI ESG ratings product suite, is based on award-winning research developed by GMI Ratings<sup>1</sup>, which was acquired by MSCI ESG Research Inc. last month.

The availability of MSCI ESG GovernanceMetrics on the MSCI ESG Manager platform is designed to allow clients to seamlessly evaluate potential ESG portfolio risk across all three ESG pillars, receive integrated data feeds, and leverage MSCI's multiple-security data infrastructure.

"This is one of the first visible benefits of MSCI ESG Research's acquisition of GMI Ratings and a breakthrough for our offering to institutional investors," said Remy Briand, Managing Director and Head of ESG Research. "We are excited to bring clients comprehensive, integrated research and analysis on the three E, S and G pillars across equity and fixed income securities through the addition of MSCI ESG GovernanceMetrics."

The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research Inc. and Barra LLC, may be used in calculating certain MSCI equity indexes. More information can be found in the relevant standard equity index methodologies on [www.msci.com](http://www.msci.com).

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in investment products linked to MSCI equity indexes.
