

MSCI World ESG Quality Select Low Volatility Index (USD)

The MSCI World ESG Quality Select Low Volatility Index is based on the MSCI World Index, its parent index, and includes large and mid-cap securities across 23 Developed Markets (DM)* countries. The index aims to represent the performance of a strategy that seeks lower risk than the MSCI World index along with improvement in the Quality, ESG and Carbon Emission Intensity characteristics. The index is a Non-Market Capitalization Weighted Index, providing an alternative weighting construct using optimization.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI World ESG Quality Select Low Volatility Index was launched on May 27, 2020. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI (NYSE: MSCI Inc.) strengthens global markets by connecting participants across the financial ecosystem with a common language.
