

# MSCI China Technology Sub-Industries Screened Select Capped Index (USD)

The MSCI China Technology Sub-Industries Screened Select Capped Index is based on the MSCI China Index, its parent index, and includes large and mid-cap securities of the Chinese equity markets. The index only includes companies belonging to selected GICS® sub-Industries while excluding the companies that are associated with controversial, civilian and nuclear weapons and tobacco, that derive revenues from thermal coal and oil sands extraction and thermal coal based power generation and that are not compliant with the United Nations Global Compact principles. The index limits company concentration by constraining the maximum weight of the companies in the Index.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI ESG Screened Indexes were renamed the MSCI Screened Indexes as of Feb 3, 2025.

The MSCI China Technology Sub-Industries Screened Select Capped Index was launched on May 11, 2021. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

## ABOUT MSCI

MSCI (NYSE: MSCI Inc.) strengthens global markets by connecting participants across the financial ecosystem with a common language. Our research-based data, analytics and indexes, supported by advanced technology, set standards for global investors and help our clients understand risks and opportunities so they can make better decisions and unlock innovation.
