

MSCI ACWI IMI Food Revolution ESG Screened Select Index (USD)

The MSCI ACWI IMI Food Revolution ESG Screened Select Index is based on the MSCI ACWI IMI Index, its parent index, and includes large, mid and small-cap securities across 23 Developed Markets (DM) and 24 Emerging Markets (EM) countries*. The aims to represent the performance of a select set of companies that are expected to derive significant revenue from the development of new products and services focused on improving the way food is produced and consumed. The Index replaces local listings of Indian companies by their ADR/GDR, where available. Additionally, the index excludes companies involved in very severe business controversies and companies having an MSCI ESG Rating of 'CCC' from the selected universe. The maximum weight of a security in the index is capped to 5%.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI ACWI IMI Food Revolution ESG Screened Select Index was launched on Oct 20, 2021. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
