## SECTOR WEIGHTS

The MSCI All Colombia Index was launched on Apr 15, 2013. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

## INDEX FRAMEWORK

The MSCI All Colombia Index is designed to represent the performance of the broad Colombia equity universe, while including a minimum number of constituents. The Broad Colombia Equity Universe includes securities that are classified in Colombia according to the MSCI Global Investable Market Index Methodology, together with companies that are headquartered or listed in Colombia and carry out the majority of their operations in Colombia. The index targets a minimum of 25 securities and 20 issuers at construction.

The methodology aims to provide exhaustive coverage of the relevant investment opportunity set with a strong emphasis on index liquidity, investability and replicability. The MSCI All Colombia Index is reviewed on a quarterly basis to coincide with the regular Index Reviews of the MSCI Global Investable Market Indexes. The November Index Review involves a full review of the composition of the MSCI All Colombia Index, including the update of the Broad Colombia Equity Universe, while the February, May and August Quarterly Index Reviews only reflect the changes to the underlying MSCI Global Investable Market Indexes.

This summary is provided for illustrative purposes only and does not include all material elements of the index or its methodology. For a complete description of the index methodology, please see [Index methodology - MSCI](#).
