

MSCI UK IMI Low Carbon SRI Selection Capped Index (USD)

The MSCI UK IMI Low Carbon SRI Selection Capped Index is designed to represent the performance of companies that have lower carbon exposure than that of the broad market and have high Environmental, Social and Governance (ESG) performance. The Index aims to represent the larger liquid segment of securities in the eligible equity universe above the defined size thresholds. Further, the Index also aims to avoid concentration by capping issuers within the Index to a maximum weight of 18% in accordance with the MSCI Capped Indexes methodology.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).
