

MSCI China Tech 100 J-Series Index (USD)

The MSCI China Tech 100 J-Series Index captures large and mid-cap representation across China A shares, H shares, B shares, Red chips, P chips and foreign listings (e.g. ADRs). Currently, the index includes large cap A and mid cap A shares accessible through the Stock Connect program and represents 20% of the free float adjusted market capitalization. The index aims to represent the performance of a set of companies that are expected to derive significant revenue from the development of new products and services from technology innovations leading to breakthroughs in areas such as internet and digitization, mobility, autonomous technology, industrial automation and digital healthcare. The MSCI J-Series Indexes do not exclude securities which are impacted by the U.S. Executive Order 13959.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).
