

MSCI Kokusai with EM Exposure Index (USD)

The **MSCI Kokusai with Emerging Markets (EM) Exposure Index** is derived from the MSCI Kokusai Index, its parent index. Following a review of the geographic distribution of revenues for each company in the MSCI Kokusai Index, the top-ranked constituents with the highest proportion of revenues derived from EM countries are selected for the **MSCI Kokusai with EM Exposure Index**. With a relatively stable 356 constituents, the index concentrates on companies with high revenue exposure to EM. As a complement to the MSCI Emerging Markets Index, investors may consider this index a new benchmark for capturing the sizeable business activity in emerging markets that is conducted by developed markets* (excluding Japan) companies.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

CUMULATIVE INDEX PERFORMANCE – GROSS RETURNS (USD) (FEB 2011 – FEB 2026)

MSCI FACTOR BOX AND FaCS FRAMEWORK (Please refer to complete description of the MSCI FaCS methodology [here](#))

MSCI FaCS is a standard method for evaluating and reporting the Factor characteristics of equity portfolios. MSCI FaCS consists of Factor Groups (e.g. Value, Size, Momentum, Quality, Yield, and Volatility) that have been extensively documented in academic literature and validated by MSCI Research as key drivers of risk and return in equity portfolios. These Factor Groups are constructed by aggregating 16 factors (e.g. Book-to-Price, Earnings/Dividend Yields, LT Reversal, Leverage, Earnings Variability/Quality, Beta) from the latest Barra global equity factor risk model, GEMLT, designed to make fund comparisons transparent and intuitive for use. The MSCI Factor Box, which is powered by MSCI FaCS, provides a visualization designed to easily compare absolute exposures of funds/indexes and their benchmarks along 6 Factor Groups that have historically demonstrated excess market returns over the long run.

ABOUT MSCI

MSCI (NYSE: MSCI Inc.) strengthens global markets by connecting participants across the financial ecosystem with a common language. Our research-based data, analytics and indexes, supported by advanced technology, set standards for global investors and help our clients understand risks and opportunities so they can make better decisions and unlock innovation.
