

MSCI World Universal Select Business Screens Index (USD)

The MSCI World Universal Select Business Screens Index is based on the MSCI World Index, its parent index, and includes large and mid-cap securities across 23 Developed Markets (DM)* countries. The index aims to represent the performance of a strategy that excludes companies that are associated with controversial weapons, nuclear weapons, oil sands or recreational cannabis; or derive revenues from conventional weapons, thermal coal, tobacco or civilian firearms; or are involved in very severe controversies pertaining to ESG issues; or have an MSCI ESG Rating of CCC. The strategy also aims to increase exposure to companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, by re-weighting free-float adjusted market capitalization weights based on certain ESG metrics.
