

MSCI Japan Value ESG Target Index (USD)

The MSCI Japan Value ESG Target Index is based on MSCI Japan Index, its parent index, which includes large and mid-cap stocks of the Japanese equity markets. The index is designed to represent the performance of a strategy that seeks systematic integration of environmental, social and governance (ESG) norms in factor investing, by seeking higher exposure to value style along with the improvement in the ESG profile of the index.

CUMULATIVE INDEX PERFORMANCE – NET RETURNS (USD) (NOV 2007 – AUG 2021)

ANNUAL PERFORMANCE (%)

Year	MSCI Japan Value ESG Target	MSCI Japan
2020	4.34	14.48
2019	18.65	19.61
2018	-11.33	-12.88
2017	22.09	23.99
2016	3.56	2.38
2015	9.11	9.57
2014	-3.16	-4.02
2013	20.33	27.16
2012	4.01	8.18
2011	-12.55	-14.33

³ Based on ICE LIBOR 1M

The MSCI Japan Value ESG Target Index was launched on Sep 28, 2017. Data prior to the launch date is back-tested data (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

INDEX METHODOLOGY

The MSCI Japan Value ESG Target Index is optimization-based index that aim to maximize their exposure to value factor while improving the ESG profile for the index relative to that of the underlying parent index (MSCI Japan). They are constructed using individual stock exposures to the value factor along with specific ESG score criteria. The MSCI Japan Value ESG Target Index is constructed based on an optimization process from the underlying Parent Index (MSCI Japan) using a Barra Equity Model to maximize the index-level exposure to the targeted style factors while controlling tracking error relative to the Parent Index (MSCI Japan).

The value score for each security is calculated by combining the security-level exposures to two factors, Book-to-Price and Earnings Yield, from the GEMTL model. A sector-relative score is derived from the combined score by standardizing the latter within each sector. The eligible universe is the universe of all the securities in the Parent Index that are not involved in very severe ESG controversies ("Red flags") or in controversial weapons. The MSCI Japan Value ESG Target Index is rebalanced on a semi-annual basis, usually as of the close of the last business day of May and November, coinciding with the May and November Semi-Annual Index Reviews (SAIRs) of the MSCI Global Investable Market Indexes.

FACTOR BOX AND FaCS METHODOLOGY

MSCI FaCS is a standard method ([MSCI FaCS Methodology](#)) for evaluating and reporting the Factor characteristics of equity portfolios. MSCI FaCS consists of Factor Groups (e.g. Value, Size, Momentum, Quality, Yield, and Volatility) that have been extensively documented in academic literature and validated by MSCI Research as key drivers of risk and return in equity portfolios. These Factor Groups are constructed by aggregating 16 factors (e.g. Book-to-Price, Earnings/Dividend Yields, LT Reversal, Leverage, Earnings Variability/Quality, Beta) from the latest Barra global equity factor risk model, GEMTL, designed to make fund comparisons transparent and intuitive for use. The MSCI Factor Box, which is powered by MSCI FaCS, provides a visualization designed to easily compare absolute exposures of funds/indexes and their benchmarks along 6 Factor Groups that have historically demonstrated excess market returns over the long run.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
