

# MSCI EM (Emerging Markets) Universal Select Index (USD)

The MSCI Emerging Markets Universal Select Index captures large and mid-cap securities across 24 Emerging Markets (EM) countries\*. The index aims to increase exposure to companies demonstrating both a robust ESG profile and a positive trend in improving that profile, by re-weighting free-float adjusted market capitalization weights based on certain ESG metrics, while minimizing exclusions from the MSCI Emerging Markets index. In addition, a selection of securities using pre-defined ESG screens is excluded from the index.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).
