

MSCI USA ESG Rating Select 100 Index (USD)

The MSCI USA ESG Rating Select 100 Index is based on its parent index, MSCI USA index, which includes large and mid-cap securities of the U.S equity market. The index aims to represent the performance of a selection of securities from the corresponding Parent Index, that have a relatively large free-float adjusted market capitalization as well as high Environmental, Social and Governance (ESG) scores relative to their peers. The index excludes companies that are associated with business that have high negative social impact as well as those with a high negative environmental impact. The indexes are further diversified by capping issuers, to avoid concentration.
