Index Framework

The Decrement Indexes are constructed by applying a constant markdown ('synthetic dividend') to the corresponding MSCI World IMI Megatrend 30 Index levels on a daily basis, expressed as a percentage of performance, based on the MSCI Decrement Indexes methodology.

The Indexes are reviewed on a Semi-Annual basis in May and November to coincide with the May and November Semi-Annual Index Reviews of the Parent Index, and the changes are implemented at the end of May and November.

For certain rebalances prior to January, 2018, some of the indexes have less than 30 constituents.

This summary is provided for illustrative purposes only and does not include all material elements of the index or its methodology. For a complete description of the index methodology, please see [Index methodology - MSCI](#)

ABOUT MSCI INC.

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
