

MSCI China IMI Environment 10/40 Index (USD)

The MSCI China IMI Environment 10/40 Index is designed to measure the performance of securities with country of classification as China comprising of large, mid and small market cap segments. The Index is comprised of securities that derive at least 50% of their revenues from environmentally beneficial products and services. The Index is based on five Environmental Impact themes: Alternative Energy, Sustainable Water, Green Building, Pollution Prevention and Energy Efficiency. The Index aims to serve as a benchmark for investors seeking exposure to companies that focus on contributing to a more environmentally sustainable economy by making efficient use of scarce natural resources or by mitigating the impact of environmental degradation. Constituent selection is based on data from MSCI ESG Research. The 10/40 concentration constraints apply investment limits where the weight of each group entity is capped at 10% and all group entities with weight of more than 5% should not exceed 40% of the Index by weight.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).
