

MSCI World ex Australia ESG Custom Index (AUD)

ESG factors can impact the long-term risk and return profile of investment portfolios. The MSCI World ex-Australia Custom ESG Index is a capitalization weighted index that consists of large and mid cap companies listed on local stock exchanges in 22 Developed Market countries*. The custom ESG index aims to represent the investable universe with constituent selection based on data from MSCI ESG Research and the ACT Government's business activity exclusions and environmental, social and governance (ESG) requirements. The index is designed to provide a broad, diversified sustainability benchmark with relatively low tracking error to the underlying global developed market equity index.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI World ex Australia ESG Custom Index was launched on Mar 04, 2014. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.
