

MSCI World SRI S-Series PAB 5% Capped Index (EUR)

The MSCI World SRI S-Series PAB 5% Capped Index is based on the MSCI World Index, its parent index, includes large and mid-cap stocks across 23 Developed Markets (DM) countries*. The index aims to represent the performance of companies that are consistent with specific values and climate change based criteria, as well as a high minimum level of ESG performance. The Index is designed for investors seeking a diversified Socially Responsible Investment (SRI) benchmark comprised of companies with strong sustainability profiles while avoiding companies incompatible with values and climate screens. The Index is constructed by applying a 5% capping on the issuer weights in the corresponding MSCI SRI S-Series Index and also align with the minimum requirements of EU Paris Aligned Benchmarks (EU PAB).

For a complete description of the index methodology, please see [Index methodology - MSCI](#).
