

MSCI World Value Exposure Select Index (USD)

The MSCI World Value Exposure Select Index is based on the MSCI World Index, its parent index, and includes large and mid-cap securities across 23 Developed Markets (DM)* countries. The index is designed to represent the performance of companies that exhibit relatively higher Value exposure within the Parent Index, while also seeking to avoid poor quality companies.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI World Value Exposure Select Index was launched on Jun 12, 2018. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.
