

# MSCI Japan ESG Rating Select 50 Index (JPY)

The MSCI Japan ESG Rating Select 50 Index is based on its parent index, MSCI Japan index, which captures large and mid-cap securities of the Japanese equity markets. The index aims to represent the performance of a selection of securities from the corresponding Parent Index, that have a relatively large free-float adjusted market capitalization, high liquidity as well as high Environmental, Social and Governance (ESG) scores relative to their peers. The index excludes companies that are associated with business that have high negative social impact as well as those with a high negative environmental impact. The indexes are further diversified by capping issuers, to avoid concentration.
