

MSCI Vietnam IMI Select 25-50 Index (USD)

The MSCI Vietnam IMI Select 25-50 Index is based on the MSCI Vietnam IMI Index, its parent index, and includes large, mid and small-cap securities of the Vietnamese markets. The securities in the Index are weighted based on their free-float market capitalization while applying a liquidity-based discount factor using the security's Annual Traded Value Ratio. The securities are weighted such that the weight of the largest group entity is capped at 25%, and the sum of the weight of all group entities representing more than 5% of the Index is capped at 50%.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

SECTOR WEIGHTS

The MSCI Vietnam IMI Select 25-50 Index was launched on Nov 18, 2021. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
