

MSCI World Select SRI Index (EUR)

The MSCI World Select SRI Index is based on the MSCI World SRI Index, its parent index which includes large and mid-cap stocks across 23 Developed Markets (DM) countries*. The index provides exposure to companies with outstanding Environmental, Social and Governance (ESG) ratings and excludes companies whose products have negative social or environmental impacts. The index excludes companies that evidence involvement with Conventional Weapons, Alcohol, Labor Rights Controversy, Carbon & Fossil Fuel and Coal. The index is constructed by selecting constituents from MSCI World SRI Index through an optimization process that aims to maximize exposure to ESG factors for a target tracking error budget under certain constraints. The index is sector-diversified and targets companies with high ESG ratings in each sector.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).
