

MSCI World SRI Sustainable Select Index (EUR)

The MSCI World Climate Change ESG Select Index is based on the MSCI World Index, its parent index, and includes large and mid-cap securities across 23 Developed Markets (DM)* countries. The index aims to incorporate additional business exclusion screens including Nuclear Weapons, Tobacco, Thermal Coal, Nuclear Power and Unconventional Oil & Gas. Additionally, companies that not in compliance with the United Nations Global Compact principles are also excluded from the index. Only companies rated B and above are eligible for inclusion in the index. The index is finally diversified by capping issuers in the index at 10%.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

CUMULATIVE INDEX PERFORMANCE – PRICE RETURNS (EUR) (MAY 2012 – MAR 2025)

ANNUAL PERFORMANCE (%)

Year	WORLD SRI SUSTAINABLE SELECT	MSCI World

The MSCI World SRI Sustainable Select Index was launched on Mar 01, 2021. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
