

MSCI Japan Islamic Universal Screened Select Index (USD)

The MSCI Japan Islamic Universal Screened Select Index is based on the MSCI Japan Islamic Index, its parent index, which reflects Sharia investment principles and includes large and mid-cap securities of the Japanese equity markets. The index applies stringent screens to exclude securities based on two types of criteria: business activities and financial ratios derived from total assets. The index is constructed by applying values and climate-based exclusion criteria on the underlying MSCI Islamic Index (the "Parent Index") followed by the application of the MSCI Universal Indexes Methodology.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

SECTOR WEIGHTS

The MSCI ESG Universal Indexes were renamed the MSCI Universal Indexes as of Feb 3, 2025.

The MSCI Japan Islamic Universal Screened Select Index was launched on Jan 18, 2023. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
