

MSCI Canada IMI Extended ESG Focus Index (CAD)

The MSCI Canada IMI Extended ESG Focus Index is based on MSCI Canada IMI Index, its parent index, which includes large, mid and small-cap securities across the Canadian equity markets. The Index is designed to maximize exposure to positive environmental, social and governance (ESG) factors while exhibiting risk and return characteristics similar to those of the MSCI Canada IMI Index. The index is constructed by selecting constituents from MSCI Canada IMI Index through an optimization process that aims to maximize exposure to ESG factors for a target tracking error budget set to 100bps under certain constraints. The index is sector-diversified and targets companies with high ESG ratings in each sector. Tobacco, Controversial Weapons and Producers of or ties with Civilian Firearms are not eligible for inclusion.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI Canada IMI Extended ESG Focus Index was launched on Dec 28, 2018. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
