The MSCI Europe ex UK Universal Select Business Screens Index is based on the MSCI Europe ex UK Index, its parent index, and includes large and mid-cap securities across 14 of 15 Developed Markets (DM) countries\* in Europe (excluding the UK). The index aims to represent the performance of a strategy that excludes companies that are associated with controversial weapons, nuclear weapons, oil sands or recreational cannabis; or derive revenues from conventional weapons, thermal coal, tobacco or civilian firearms; or are involved in very severe controversies pertaining to ESG issues; or have an MSCI ESG Rating of CCC. The strategy also aims to increase exposure to companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, by re-weighting free-float adjusted market capitalization weights based on certain ESG metrics.
