# MSCI World Quality Select Screens Advanced Index (USD)

The MSCI World Quality Select Screens Advanced Index is designed to represent the performance of a strategy that seeks systematic integration of environmental, social and governance (ESG) norms in factor investing, by seeking higher exposure to the Quality factor along with the improvement in the ESG profile of the Indexes, while minimizing exposure to controversial business involvement as per the MSCI SRI methodology. It captures large and mid cap representation across 23 Developed Markets (DM) countries*

For a complete description of the index methodology, please see Index methodology - MSCI.

The MSCI ESG Target Indexes were renamed the MSCI Advanced Indexes as of Feb 3, 2025.

The MSCI World Quality Select Screens Advanced Index was launched on Apr 20, 2023. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance -- whether actual or back-tested -- is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
