

MSCI ACWI SRI 5% Issuer Capped with Developed Markets 100% Hedged to USD Index (USD)

The MSCI ACWI SRI 5% Issuer Capped with Developed Markets 100% Hedged to USD Index represents a close estimation of the performance that can be achieved by hedging the currency exposures of its parent index, the MSCI ACWI Index, to the USD, the "home" currency for the hedged index. The index's exposure to developed market country constituents is 100% hedged to the USD by selling each foreign currency forward at the one-month Forward rate. The parent index is composed of large and mid-cap stocks across 23 Developed Markets (DM) countries and 24 Emerging Markets (EM) countries*. The Index is a capitalization weighted index that provides exposure to companies with outstanding Environmental, Social and Governance (ESG) ratings and excludes companies whose products have negative social or environmental impacts. The Index is designed for investors seeking a diversified Socially Responsible Investment (SRI) benchmark comprised of companies with strong sustainability profiles while avoiding companies incompatible with values screens.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).
