

MSCI World IMI Climate Adaptation Select 30 Index (EUR)

The MSCI World IMI Climate Change Adaptation Select 30 Index is based on the MSCI World IMI Index, its parent index, and includes large, mid and small-cap securities across 23 Developed Markets (DM)* countries. The index aims to represent the performance of 30 stocks that have relatively high Low Carbon Transition scores, as well as exhibit low historical realized volatility and high dividend yield. The index aims to achieve diversification with country and sector constraints.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI World IMI Climate Adaptation Select 30 Index was launched on Jul 16, 2020. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
