	Appendix II: Changes to the Methodology Book	11

1 General Methodology Overview

The MSCI Corporate Bond Indexes¹ ('the Indexes') are constructed to measure the performance of the developed market eligible corporate bond debt.

The MSCI Corporate Bond Indexes conform to general construction guidelines as described in this methodology. They are rule based with consideration to the following factors:

- Size
- Maturity
- Credit Rating

The Indexes are designed to balance representativeness and replicability for global investors.

¹ The Indexes are governed by a set of methodology and policy documents ("Methodology Set"), including the present index methodology document. The Methodology Set for the Indexes can be accessed from MSCI's webpage <https://www.msci.com/index-methodology> in the section 'Search Methodology by Index Name or Index Code'. The Methodology Set includes a document 'ESG Factors in Methodology' that contains the list of environmental, social, and governance factors considered, and how they are applied in the methodology (e.g., selection, weighting or exclusion).

2 Index Construction: General guidelines

Security Type: The Indexes include securities selected from the global corporate bond universe. In general, the universe includes fixed rate coupon bonds from developed market corporate issuers.

Issues with tax-advantages, index-linked and perpetual bonds are excluded. In terms of capital structure, only senior secured, senior unsecured and subordinated (both junior and senior) debt is included. Capital securities, such as preferred stock, are not eligible to be part of the index.

Note that inclusion and exclusion based on security types may vary across currencies and credit rating buckets.

Security types eligible and ineligible for index inclusion are tabulated below. Any exceptional treatment in a particular currency universe to this eligibility criteria will be highlighted in the currency specific sections.

Eligible Security Types	Ineligible Security Types
Corporate Debt only ²	Floating Rate Coupon Bonds
Senior and Subordinated Issues	Zero Coupon Bonds
Puttable and Callable Bonds	Inflation Protected Bonds
Bullet Bonds	Bonds with sinking fund provision
Bonds with Step-up / Step-down Coupons	PIKs
Fixed to Floating Rate Bonds are eligible for inclusion during their fixed rate term only. They are excluded 1 year prior to the conversion date as measured from the Rebalancing Date.	Private Placements
	Perpetuals
	Dual Currency
	Strips (IO/PO)
	Hybrids ³
	Covered Bonds

144A / RegS ISINs: Indexes denominated in USD & CAD include 144a ISINs⁴ while indexes denominated in EUR & GBP include RegS ISINs. 144a bonds without registrations rights are not eligible for inclusion in the Investment Grade Corporate Bond Indexes.

² Corporate issuers classified as government owned as per MSCI data vendors are excluded from the index.

³ Equity linked hybrid bonds are ineligible (e.g. - convertible bonds, warrants, preferred shares etc.)

⁴ MSCI Investment Grade (IG) Corporate Bond Indexes only include 144a bonds with registration rights, whereas MSCI High Yield (HY) Corporate Bond Indexes include both, 144a bonds with registration rights and 144a bonds without registration rights.

Credit Rating⁵: Each index constituent must be rated by either by S&P, Fitch or Moody’s. For bonds that are rated by two rating agencies, the lower rating will be used to determine the index inclusion criteria. For bonds that are rated by all three rating agencies, the median rating will be used to determine the index inclusion criteria.

The table below summarizes higher and lower rating thresholds for the Index.

	S&P Rating		Moody’s Rating		Fitch Rating	
	Higher Rating Threshold	Lower Rating Threshold	Higher Rating Threshold	Lower Rating Threshold	Higher Rating Threshold	Lower Rating Threshold
IG	AAA	BBB-	Aaa	Baa3	AAA	BBB-
HY	BB+	CC	Ba1	Ca	BB+	CC

Issuer’s Country of Exposure: Securities included in the MSCI Corporate Bond Indexes must belong to Developed market issuers as per the Economic Development pillar in the MSCI Fixed Income Market Classification Framework⁶.

Maturity: Each index constituent must have a maturity greater than or equal to 1 year as measured from the Rebalancing Date (defined below). New additions to the index must have a maturity greater than or equal to 1 ½ years as measured from the Rebalancing Date.

Weighting: Index constituents will be weighted by market value⁷.

After all the above eligibility criteria are applied, the issuer ticker weights are capped at 3% for the following MSCI Corporate Bond Indexes –

- MSCI USD IG Corporate Bond Index (MSCI Index Code: 754867)
- MSCI EUR IG Corporate Bond Index (MSCI Index Code: 733885)
- MSCI GBP IG Corporate Bond Index (MSCI Index Code: 734508)
- MSCI USD HY Corporate Bond Index (MSCI Index Code: 730306)
- MSCI EUR HY Corporate Bond Index (MSCI Index Code: 733886)
- MSCI Global IG Corporate Bond Index (MSCI Index Code: 758058)
- MSCI Global HY Corporate Bond Index (MSCI Index Code: 758057)

⁵ Historically, the Index utilized credit ratings only from S&P and Moody’s for determining index eligibility and related criteria. However, effective April 2025, Fitch credit ratings are incorporated alongside Moody’s and S&P ratings to assess index eligibility and respective distinctions.

⁶ Please refer to MSCI Fixed Income Market Classification Framework document for further details. Available at <https://www.msci.com/our-solutions/indexes/market-classification>

⁷ Please refer to MSCI Fixed Income Index calculation methodology for further details on calculation of market value.

Note that the capping of the issuer weight is done for the pro forma index as of the rebalancing effective date, based on the closing prices as of the index review cut-off date. In cases where the issuer weight breaches the cap as a result of market price movements or corporate events between the cut-off date and the rebalancing effective date, the capping is not applied again. Similarly, even if any issuer weight breaches the cap as a result of market price movements or corporate events between two monthly reviews, no capping is applied.

Pricing: MSCI uses bid side pricing from data vendors. Securities not priced by any of the designated pricing sources are ineligible for index inclusion.

Settlement: MSCI applies standard same-day (T+0) index settlement convention, unless otherwise specified.

3 Index Construction: MSCI Global Corporate Bond Indexes

The MSCI Global IG and HY Corporate Bond Indexes follow general guidelines as outlined in Section 2. In addition to those, the following rules are also applicable for the construction of the MSCI Global IG and HY Corporate Bond Indexes.

Size: MSCI calibrates and determines size-based index inclusion criteria to balance representativeness and liquidity in each credit universe.

At a security level, size is determined by its notional amount outstanding⁸. At rebalancing, each security included in the Indexes will have size greater than or equal to the thresholds tabulated in the table below.

Currency	Security Size Threshold	
	MSCI Global IG Corporate Bond Index	MSCI Global HY Corporate Bond Index
AUD	200 million	100 million
CAD	150 million	100 million
CHF	200 million	100 million
EUR	300 million	150 million
GBP	200 million	100 million
JPY	20 billion	10 billion
USD	300 million	200 million

⁸ Please refer to MSCI Fixed Income Data Methodology document for details on the calculation of Issuer amount outstanding.

4 Index Construction: Single currency MSCI Corporate Bond Indexes

The single currency MSCI Corporate Bond Indexes construction follows the general guidelines outlined in Section 2. In addition to those, the following rules are also applicable for their construction.

Index	Security Size Threshold	Issuer Size Threshold
MSCI USD IG Corporate Bond Index (754867)	USD 300 million	-
MSCI USD IG Core Corporate Bond Index (725976)	USD 750 million	USD 2 billion
MSCI USD HY Corporate Bond Index (730306)	USD 200 million	-
MSCI EUR IG Corporate Bond Index (733885)	EUR 300 million	-
MSCI EUR HY Corporate Bond Index (733886)	EUR 150 million	-
MSCI GBP IG Corporate Bond Index (734508)	GBP 200 million	-
MSCI GBP HY Corporate Bond Index (734509)	GBP 100 million	-
MSCI CAD IG Corporate Bond Index⁹ (731032)	CAD 150 million	-
MSCI CAD HY Corporate Bond Index¹⁰ (731033)	CAD 100 million	-

⁹ MSCI CAD IG Corporate Bond Index includes non-viable contingent convertible (NVCC) bonds.

¹⁰ MSCI CAD HY Corporate Bond Index includes non-viable contingent convertible (NVCC) bonds.

5 Index Rebalancing & Maintenance

- The composition of the MSCI Corporate Bond Indexes is reviewed monthly, with an effective rebalancing impact on the first business day of the month (termed as Rebalancing Date). For clarification, bonds are added to the index on the closing of last business day of every month, however, the return impact is on the first business day of the month.
- Change in the Index composition is based on latest data available as of three days prior to the Rebalancing Date, which is defined as the Cut-Off Date. Any inclusion or exclusion criteria satisfied for a given security in the universe, after the Cut-Off Date, will generally become effective at the following monthly rebalancing; should conditions remain unchanged. In exceptional cases, for instance, cases of input data correction, MSCI can reduce the Cut-Off Date for Index rebalancing from T-3 to T-2, T-1, or T. In such instances, MSCI will notify Index clients of such changes via an announcement.
- MSCI will disclose proforma index rebalancing results starting the second business day of each month. MSCI will freeze the pro forma index rebalancing results as of the Cut-Off Date.
- Bonds are added to or deleted from the index only on monthly rebalancing dates. For the existing index components any changes to index eligibility will only be reflected in the next monthly rebalancing.
- Any inclusion or exclusion criteria satisfied for a given security in the universe, after the Cut-Off Date, will generally become effective at the following monthly rebalancing; should conditions remain unchanged.
- Any cash that accrues within the index in each month is re-invested on a pro-rata basis across the index constituents, on the Rebalancing Date. In essence, cash in the index is swept out on rebalancing and the opening index portfolio on the Rebalancing Date starts with zero accrued cash balance.
- Specific variants of total return calculation of the index on the Rebalancing Date may be adjusted for transaction costs¹¹ as securities are added to the index at the offer price.

For further information on index total return calculation and corporate events handling please refer to the MSCI Fixed Income Index Calculation Methodology¹². For the holiday calendar used in the indexes, please refer to the MSCI Fixed Income Data Methodology¹³.

MSCI leverages the GICS^{®14} sector classification framework for MSCI Corporate Bond Indexes as well. Please refer to MSCI GICS Methodology¹⁵ for details.

¹¹ Refer to the MSCI Fixed Income Index Calculation Methodology for detail. Available at <https://www.msci.com/index-methodology>

¹² Refer to the MSCI Fixed Income Index Calculation Methodology for detail. Available at <https://www.msci.com/index-methodology>

¹³ The methodologies are available at: <https://www.msci.com/index-methodology>.

¹⁴ GICS, the global industry classification standard jointly developed by MSCI Inc. and S&P Dow Jones Indices.

¹⁵ The GICS methodology is available at: <https://www.msci.com/gics>

Appendix I: Methodology Set

The Indexes are governed by a set of methodology and policy documents (“Methodology Set”), including the present index methodology document as mentioned below:

- Description of methodology set –
<https://www.msci.com/index/methodology/latest/FIInfo>
- MSCI Fixed Income Data Methodology –
<https://www.msci.com/index/methodology/latest/FIDATA>
- MSCI Fixed Income Calculation Methodology –
<https://www.msci.com/index/methodology/latest/FIINDEXCALC>
- MSCI Fixed Income Glossary of Terms –
<https://www.msci.com/index/methodology/latest/FIGLOSS>
- MSCI Fixed Income Index Policies –
<https://www.msci.com/index/methodology/latest/FIINDEXPOLICY>

The Methodology Set for the Indexes can also be accessed from MSCI’s webpage <https://www.msci.com/index-methodology> in the section ‘Search Methodology by Index Name or Index Code’.

Appendix II: Changes to the Methodology Book

The following sections have been modified since June 2020:

Section 2 Index Construction

- Realigned Sections 2.1 and 2.2. Section 2.1 now addresses general index construction guidelines followed by all MSCI Corporate Bond Indexes.
- Section 2.2 addresses specific rules pertaining to the construction of MSCI USD Corporate Bond Indexes.

Section 2.2 MSCI USD Corporate Bond Indexes

- Added a footnote on pg. 6 to clarify the inclusion criteria for government owned corporate entities.
Added a footnote on pg. 6 to distinguish the rules for inclusion of 144a bonds between MSCI IG Corporate Bond Indexes and MSCI HY Corporate Bond Indexes.
- Removed the exclusion of bonds with equity clawback provision.
- On pg. 7 added the amount outstanding cutoff used in the construction of MSCI USD HY Corporate Bond Indexes.

Appendix

- Added list of developed market countries in Appendix I.
- Added change log for the methodology book in Appendix II.

The following sections have been modified since July 2020:

- Added Section 2.3 for MSCI EUR Corporate Bond Indexes.
- Amended Appendix I: MSCI Developed Market Universe.

The following sections have been modified since October 2020:

- Added Section 2.4 for MSCI GBP Corporate Bond Indexes.
- Amended Section 2.1, 2.2 and 2.3.

The following sections have been modified since June 2021:

- Added Section 2.5 for MSCI CAD Corporate Bond Indexes.

The following sections have been modified since November 2022:

- Clarified on inclusion of Covered Bonds in Section 2.1.

The following sections have been modified since September 2023:

- Added in Section 2.2. the new size thresholds for the MSCI USD IG Corporate Bond Indexes.
- Added Section 2.2.1 for MSCI USD IG Corporate Bond Indexes.
- Added Section 4 for MarketAxess Data Section.

The following sections have been modified since June 2024:

- Added a bullet on Issuer Capping in Section 2.1
- Removed Section 2.2.1 for MSCI USD IG Corporate Bond Indexes.
- Removed Section 4

The following sections have been modified as of December 2024:

Appendix I: Methodology Set

- Added details on the Methodology Set for the Index

The following sections have been modified as of February 2025:

- Amended Section 2, 3 and 4 to reflect the index construction methodology of MSCI Global IG Corporate Bond Index and MSCI Global HY Corporate Bond Index.

The following sections have been modified as of April 2025:

- Amended Section 2 to reflect the integration of Fitch Credit Ratings in the index construction methodology of the MSCI Corporate Bond Indexes.

About MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process.

The process for submitting a formal index complaint can be found on the index regulation page of MSCI's website at: www.msci.com/index-regulation.

To learn more, please visit www.msci.com.

Notice and disclaimer

This document is research for informational purposes only and is intended for institutional professionals with the analytical resources and tools necessary to interpret any performance information. Nothing herein is intended to promote or recommend any product, tool or service.

This document and all of the information contained in it, including without limitation all text, data, graphs, charts (collectively, the "Information") is the property of MSCI Inc. or its subsidiaries (collectively, "MSCI"), or MSCI's licensors, direct or indirect suppliers or any third party involved in making or compiling any Information (collectively, with MSCI, the "Information Providers") and is provided for informational purposes only. The Information may not be modified, reverse-engineered, reproduced or redisseminated in whole or in part without prior written permission from MSCI. All rights in the Information are reserved by MSCI and/or its Information Providers.

The Information may not be used to create derivative works or to verify or correct other data or information. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services.

The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information may include "Signals," defined as quantitative attributes or the product of methods or formulas that describe or are derived from calculations using historical data. Neither these Signals nor any description of historical data are intended to provide investment advice or a recommendation to make (or refrain from making) any investment decision or asset allocation and should not be relied upon as such. Signals are inherently backward-looking because of their use of historical data, and they are not intended to predict the future. The relevance, correlations and accuracy of Signals frequently will change materially.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. The calculation of indexes and index returns may deviate from the stated methodology. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.'s company filings on the Investor Relations section of msci.com.

MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc. Neither MSCI nor any of its products or services recommends, endorses, approves or otherwise expresses any opinion regarding any issuer, securities, financial products or instruments or trading strategies and MSCI's products or services are not a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such, provided that applicable products or services from MSCI ESG Research may constitute investment advice. MSCI ESG Research materials, including materials utilized in any MSCI ESG Indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body. MSCI ESG and climate ratings, research and data are produced by MSCI ESG Research LLC, a subsidiary of MSCI Inc. MSCI ESG Indexes, Analytics and Real Estate are products of MSCI Inc. that utilize information from MSCI ESG Research LLC. MSCI Indexes are administered by MSCI Limited (UK) and MSCI Deutschland GmbH.

Please note that the issuers mentioned in MSCI ESG Research materials sometimes have commercial relationships with MSCI ESG Research and/or MSCI Inc. (collectively, "MSCI") and that these relationships create potential conflicts of interest. In some cases, the issuers or their affiliates purchase research or other products or services from one or more MSCI affiliates. In other cases, MSCI ESG Research rates financial products such as mutual funds or ETFs that are managed by MSCI's clients or their affiliates, or are based on MSCI Inc. Indexes. In addition, constituents in MSCI Inc. equity indexes include companies that subscribe to MSCI products or services. In some cases, MSCI clients pay fees based in whole or part on the assets they manage. MSCI ESG Research has taken a number of steps to mitigate potential conflicts of interest and safeguard the integrity and independence of its research and ratings. More information about these conflict mitigation measures is available in our Form ADV, available at <https://adviserinfo.sec.gov/firm/summary/169222>.

Any use of or access to products, services or information of MSCI requires a license from MSCI. MSCI, Barra, RiskMetrics, IPD and other MSCI brands and product names are the trademarks, service marks, or registered trademarks of MSCI or its subsidiaries in the United States and other jurisdictions. The Global Industry Classification Standard (GICS) was developed by and is the exclusive property of MSCI and S&P Global Market Intelligence. "Global Industry Classification Standard (GICS)" is a service mark of MSCI and S&P Global Market Intelligence.

MIFID2/MIFIR notice: MSCI ESG Research LLC does not distribute or act as an intermediary for financial instruments or structured deposits, nor does it deal on its own account, provide execution services for others or manage client accounts. No MSCI ESG Research product or service supports, promotes or is intended to support or promote any such activity. MSCI ESG Research is an independent provider of ESG data.

Privacy notice: For information about how MSCI collects and uses personal data, please refer to our Privacy Notice at <https://www.msci.com/privacy-pledge>.
