

# MSCI World Screened Choice Index (USD)

The MSCI World Screened Choice Index is a free float-adjusted market capitalization-weighted index based on the MSCI World Index, its parent index, and includes large and mid-cap securities across 23 Developed Markets (DM)\* countries. The index excludes companies that are associated with controversial, civilian, and nuclear weapons as well as tobacco or Companies that derive revenues from thermal coal power and extraction of select fossil fuels or Companies that are not in compliance with the United Nations Global Compact principles or Companies that are involved in Red Flag ESG controversies.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI World Screened Choice Index was launched on May 13, 2020. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

## ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process.
