

MSCI Japan ESG Universal Select Index (JPY)

The MSCI Japan ESG Universal Select Index captures large and mid-cap securities of the Japanese equity markets. The index aims to increase exposure to companies demonstrating both a robust ESG profile and a positive trend in improving that profile, by re-weighting free-float adjusted market capitalization weights based on certain ESG metrics, while minimizing exclusions from the MSCI Japan index. In addition, a selection of securities using pre-defined ESG screens is excluded from the index.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

SECTOR WEIGHTS

The MSCI Japan ESG Universal Select Index was launched on Sep 16, 2020. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
