

## MSCI and Confluence Help Investors Streamline SEC N-PORT Regulatory Reporting Requirements

**New York – January 29, 2017** – [MSCI](#) Inc. (NYSE: MSCI), a leading provider of analytics, applications and services to institutional investors, has entered into agreement with Confluence Technologies, Inc (“Confluence”), a global leader in investment data management automation for regulatory, financial and investor reporting, to help asset managers streamline compliance with SEC Modernization and other regulatory reporting requirements.

The SEC’s sweeping modernization rules – in particular the introduction of new monthly portfolio reporting requirements (Form N-PORT) – can place an added operational burden on asset managers. Compliance with the rules may require additional market data, analytics and new reporting infrastructure.

Working together, MSCI and Confluence will offer a streamlined solution designed to facilitate compliance with the SEC’s new reporting requirements. MSCI will optimize the delivery of its data and risk and liquidity analytics for easier integration into Confluence’s Unity NXT® Regulatory Reporting solution. These analytics include the calculation of market risk sensitivities at a portfolio and position level, and the classification of funds’ investments into liquidity buckets, as outlined in SEC Rule 22e-4. Mutual clients of MSCI and Confluence will receive easy and efficient access to the data and analytics they can leverage to comply with the SEC’s Form N-PORT requirements.

“We are pleased to work with Confluence in offering asset managers a streamlined and efficient solution to help meet their ever-changing and growing regulatory requirements,” said **Giulio Panzano**, MSCI’s Global Head of Analytics Product Management. “MSCI began working on modeling liquidity risk in 2010 and launched the LiquidityMetrics methodology in 2013. Our goal is to provide an end-to-end liquidity risk management solution that offers the data, risk modeling framework and enterprise reporting capabilities asset managers can use to fulfill their regulatory requirements.”

“SEC Modernization is a gamechanger for back offices across the asset management industry,” said **Todd Moyer**, Chief Operating Officer at Confluence. “Obtaining the data they need to comply with new requirements has become a major challenge for fund managers, and while Confluence has become an indispensable solution for our clients, our model depends upon a close working relationship with the best market data providers and risk management specialists, such as MSCI.”

MSCI is ranked as a **top 3 risk management technology firm** according to the [2018 RiskTech100®](#), a study of risk and compliance technology companies by Chartis. Since launching LiquidityMetrics, the firm has continued to expand its functionality in step with evolving regulatory mandates. As a result, MSCI has received numerous awards for LiquidityMetrics, most recently earning a Risk.net 2018 Market Technology Award for [Market Liquidity Risk Product of the Year](#).

The Information may not be modified, reverse-engineered, reproduced or disseminated in whole or in part without prior written permission from MSCI.

The Information may not be used to create derivative works or to verify or correct other data or information. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services.

The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

## PRESS RELEASE

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI equity indexes. More information can be found in the relevant standard equity index methodologies on [www.msci.com](http://www.msci.com).

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in investment products linked to MSCI equity indexes.
